— PRESS RELEASE —

July 6, 2006

Bury+Partners Named
One of the Top Ten Fastest Growing Design Firms Nationwide

Bury was named Number 10 on the Zweig Letter's 2006 Hot Firm List of the 100 fastest-growing architecture, engineering, planning and environmental consulting firms in the United States. Rapidly climbing revenues and a tremendous increase in staff size attribute to Bury's 133% growth in three years. "Growth is essential for a sustainable future. One of our core values is to provide opportunities for our employees personally and professionally; unification, focus and profitability afford us that occasion," stated Paul Bury, President.

As a testimony to Bury's rise to the top, the firm has been selected for many high-profile projects recently such as the Federal Reserve Bank in Richmond, Virginia, the United States National Slavery Museum in Fredericksburg, Virginia, the Robert Mueller Municipal Airport Redevelopment in Austin, Texas and the GBRA and Sustainable Water Resources LLC regional water supply partnership project in Central Texas.

Bury is a dynamic, diversified engineering and consulting firm with offices in Austin, Dallas, Houston, San Antonio and Temple, Texas, and Fairfax, Williamsburg and Warrenton, Virginia. Founded in 1984, the company has more than 360 employees. It has been named one of the state's "Top Design Firms" by Texas Construction, has steadily advanced in the national rankings of Engineering News Record and is recognized by CE News as one of the Top 50 Places to Work nationally.

For more information on how we help clients achieve their goals for success, contact Paul Bury at 512.328.0011 or pbury@burypartners.com.
